## thirdstream Platform

The thirdstream system of engagement revolutionizes account origination by seamlessly guiding financial institutions through key steps.

Our platform helps financial institutions through the critical steps of the account origination experience.

From remote ID verification to real-time funding, our ecosystem ensures streamlined deposit and loan applications, enhancing efficiency and customer satisfaction.

Thirdstream takes a platform approach to delivering its system of engagement, presenting its onboarding solutions as an API-driven series of modules designed to provide its clients with choices. Our platform approach helps financial institutions deploy rapidly and enables a focused approach that leverages existing infrastructure and enterprise systems.

### Enhance

The Thirdstream platform revolutionizes account origination by seamlessly guiding financial institutions through critical steps, from remote ID verification to real-time funding, ensuring streamlined deposit and loan applications.

### Enable

Its API-driven approach offers tailored solutions for rapid deployment, enhancing efficiency and customer satisfaction.

### Integration

This enables financial institutions to swiftly adapt to evolving business requirements, enhancing agility and responsiveness in the marketplace.

### Marketplace

Thirdstream's platform enables fintechs and strategic third-parties in one comprehensive ecosystem that continually delivers value to financial institutions.

**Enhanced  
Efficiency**

**Streamlined  
Operations**

**Enhanced  
Security**

Become a part of thirdstream's industry-leading platform, offering secure, comprehensive API connectivity. Join our network linking fintech solutions with banks, brokerages, credit unions, and trust companies. Benefit from seamless retail and commercial account opening, credit card onboarding, robust data analytics, and expert data management. Building on 20 years of experience in fintech, and security and data compliance.

### **Interoperability**

Seamlessly integrate financial platforms and core processing systems for cohesive data sharing and real-time communication.

### **Customer Experience**

Deliver a more integrated and satisfying customer journey by connecting platforms to core processing solutions.

### **Data Accuracy**

Ensure consistent and accurate data across systems, minimizing errors and enhancing data quality.

### **Scalability**

Easily scale operations with our API library, accommodating growth and facilitating the addition of new features and integrations.

### **Efficiency**

Streamline integration with standardized APIs for quicker deployment, reducing development time and enabling agile adaptation.

### **Competitive Advantage**

Stay ahead in the market with quick integration capabilities, enabling agility and innovation to meet evolving customer needs.
